

## B BALL

### *A ball for each stage of the learning process*

The B ball fits into Babolat's line for beginners. It coincides with the ITF's guidelines and the Play & Stay program. This intermediate level ball is made of foam; it's bigger and slower than a standard ball so it's ideal for adult beginners and children ages 3 to 8. It enables players to get a better understanding of the ball, the space around them and the proper moves to make.
